

## Basic Information

**Title:** Survey to determine the prevalence of trafficking in persons in Fiji, 2020-2021

**Purpose:** this survey aims at estimating the prevalence of human trafficking using the network scale-up method (NSUM) survey method. Respondents are asked questions which capture the experiences of people within their personal networks who have been recruited by means including deception, coercion and abuse of a position of vulnerability for exploitation, and who are likely to be victims of human trafficking.

**Population of interest:** adult persons in urban and rural households.

**Implementing agencies:** Fiji Bureau of Statistics and the United Nations Office on Drugs and Crime.

Good morning/afternoon/evening, my name is <<name of interviewer>>. I am with *the Fiji Bureau of Statistics*, and we are working with the United Nations Office on Drugs and Crime to conduct an important survey.

This is the first national human trafficking survey in Fiji and the Pacific, which aims to estimate how widespread or common trafficking in persons is in Fiji.

This survey will assist in improving knowledge on trafficking in persons to support the design of public policies and programmes.

This questionnaire contains no information that could make identifying respondents/ interviewees possible, thus you will remain anonymous.

Please answer every question based on your knowledge and experience. There are neither correct nor incorrect answers.

The completed questionnaires will be treated confidentially and will be processed using statistical methods. They will be added as part of 1000 questionnaires from other people we are talking to, to get an overall picture. It will be impossible to pick you out from what you say, so please feel free to tell us about your experiences or the experiences of people who you know personally.

Results will be published in the form of statistical tables with a narrative.

This interview will take about 30-40 minutes. Participation in the survey is voluntary, you may refuse to take part or to answer specific questions during the interview.

May I start the interview, now?
